# Lecroy LT584 Waverunner 示波器

儀器圖片:

儀器設備型號:

1. 1 GHz Bandwidth
2. 4 Channels
3. 2 GS/s Single shot sampling on all channels
4. 4 GS/s Single shot sampling on two channels combined
5. 50 GS/s repetitive sample rate
6. Better than 10 ppm timebase accuracy with 5 ps resolution
7. Up to 8 Mpt waveforms on two channels combined (with option L)
8. 8.4? TFT LCD color display
9. SMART Triggers include slew rate and runt to <=2.5ns (optional)
10. Analog Persistence feature with History view
11. QuickZoom button automatically magnifies signal views
12. Wavepilot? provides quick access to analysis views of measurements such as FFTs, Histograms, and TrackViews
13. Averaging and enhanced resolution up to 11 bits Deskew and rescale

14. GPIB, RS-232-C, VGA and Centronics Ports (Standard); Ethernet (Optional)
15. Automatic pass/fail testing
16. PC Card support for hard drives and memory cards
17. Internal graphics printer option

服務項目:

注意事項: NA
